

Whitebead School District
16476 NCR 3200
Pauls Valley, OK 73075

BEN 139807

Whitebead School District would like to respectfully request a review of our funding decision based on a clerical error pertaining to the discount calculation. As a new ERATE team member I misinterpreted the FREE and Reduced calculation and only submitted a count for FREE omitting the REDUCED population of our students. This error caused a reduction in funding by 10%. It is our desire to request the 60% discount for voice services and the 80% discount for Internet that absent my mistake we would have received. It was only noticed when the previous, retired Technology Director was called in to help.

Precise relief being sought:

FRN 2742035 from 40% to 60%

FRN 2812571 from 40% to 60%

FRN 2812591 from 40% to 60%

FRN 2812579 from 60% to 80%

Total shortfall due to clerical filing error being sought: \$2,861.34

Thank you for your careful consideration. I am hopeful and will look forward to a positive response.

Sincerely,

Hollie Carson, Technology Director
